EXPERIENCE SUMMARY

- A motivated and creative individual with over 2 years of Software Engineering experience, passionate about technology and adept in solving complex challenges in SaaS application development. Proficient in both frontend and backend development, leveraging skills in ReactJS, Python/Flask, NodeJS, and JavaScript.
- Proven ability to work with a moderate degree of autonomy, showcasing initiative in learning new technologies like Golang and AI/machine learning. Demonstrates solid problem-solving, technical design, and analytical skills.
- Team lead experience with Strong communication skills. Known for a strong sense of compassion and empathy, fostering a team-oriented environment where success is shared.
- Demonstrated ability to prioritize work, manage dependencies, and solve challenging problems, ensuring efficient progression in software development projects. Self-starter and keen learner currently taking an AI and machine learning course as well as completing a Golang course.
- Proficient in software delivery best practices, including CI/CD, test automation, and infrastructure as code.
- Customer-centric mindset aiding customers to achieve their objectives, underlining a strong desire for personal growth and a customer-focused approach to technology solutions.

PROFESSIONAL EXPERIENCE

Software Development Mastermind Intern

October 22 – February 24

- A rigorous, hands-on mentorship program I attended for 16 weeks.
- Simulates a work environment by focusing on building real-world projects under deadlines.
- There is constant feedback and coaching throughout the process that has helped to refine and enhance my programming skills.
- Projects Completed Include:

Chat App

This app is a simple group chat which allows you to send messages to everyone in a group.

- Written in HTML, CSS, JavaScript, ReactJS, Bootstrap, Python, Flask and PostgreSQL
- Utilizes web sockets to display real-time messages to users.
- Implements a PostgreSQL database.
- Implements JSON Web Tokens for user authentication.
- Deployed on Render

Link: <https://chatapp-fdyf.onrender.com>

Twitter (Now X) Showcase App

This app accesses Twitter (now X) and allows you to search Twitter for posts etc.

- Written in HTML, CSS, Javascript, ReactJs, Bootstrap, Python and Flask
- Utilizes Twitter's RESTful API to retrieve real-time Twitter data based on user input.
- Deployed on Render

Link: <https://twitter-showcase-app-ucxm.onrender.com/>

Star Wars App

This app accesses the Star Wars API (<https://swapi.dev>) to get information on the characters in the Star Wars franchise of the characters found in the movies.

- Written in HTML, CSS, JavaScript, ReactJS and Bootstrap
- Utilizes the swapi.dev RESTful API to retrieve character data displayed in application
- Deployed on Netlify

Link: <https://silly-brigadeiros-d326dd.netlify.app>

FedEx Canada, Markham, ONT Courier

October 2016 – Present

- To provide efficient delivery of customer packages
- Pick up packages from customers.
- Co-Chair on the safety committee

FedEx Canada, Mississauga, ONT Sort Team Lead

December 2008 – October 2016

- Assist Operations Manager on the Second Floor
- Supervised the Document Sort, Primary and Secondary Sort
- Provided recurrence training and training for new employees
- Setup the sort operations for Document Sort, Primary and Secondary Sort
- Filled in for the Operations Manager in the Operations Manager's absence.

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML, CSS, PostgreSQL

Frameworks: React, Bootstrap, Flask

Technologies: Git, GitHub, Visual Studio Code, Postman, PyCharm, PostgreSQL

Deployment Environments: Netlify, Render, GitHub Pages

EDUCATION

SOFTWARE DEVELOPMENT MASTERMIND, INC.

Remote (February 2024)

- A rigorous, hands-on mentorship program I attended for 16 weeks focusing on full stack software development
- Simulates a work environment by focusing on building real-world projects
- There is constant feedback and coaching throughout the process that has helped to refine and enhance my programming skills.

BOOTCAMP FROM ZERO TO HERO IN PYTHON

Online (May 2022)

- Formalized my Python education by doing this bootcamp.

RADIO COLLEGE OF CANADA

Concord, ONT

- Electronics Technician Program
- Graduated with an Electronics Technician Diploma (Associate Degree)
